

Spring Tree Planting at Beckwith Preserve

Saturday, April 27, 2024

10am - noon

Meet at parking lot off M-106

(eastside of Stockbridge, 2792 E. M-106)

Over 200 native bare root saplings with protective tree tubes will be planted! **Volunteers needed!** Anyone interested in helping should send an email to volunteer@legacylandconservancy.org

Pants and closed toe shoes are a must to protect from poison ivy, ticks and scratches. Legacy will provide some long-handle planting spades, dibble bars and work gloves, but welcomes volunteers to bring their own. Don't forget a water bottle, bug spray, and sunscreen!

Other upcoming events:

- May 11: Work day at Beckwith to remove garlic mustard and dame's rocket, 10am.
- July 20: 25th Anniversary Party for the founding of Beckwith Preserve! 10am.
